Supporting Future Army Leaders

Companies and individuals now have the opportunity to support and help top-notch ROTC cadets gain skills that will help the US Army continue to be the best in the world. Your gift shows your commitment to educating future Army leaders through a unique internship experience they do not receive in college or basic ROTC training.

Every summer since 2009, NFSTC has offered a rigorous, two-week, one-of-a-kind Biometrics and Forensic Internship for a cadre of 12 ROTC Cadets from around the country at no charge. Dozens of Cadets have learned cutting edge biometric and forensic identification and collection techniques, an area of growing importance to our nation’s security. In addition, they build skills such as leadership, decision-making, and prioritizing actions under pressure.

We are looking forward to hosting the 2017 class July 17-28!

2017 Sponsorship Opportunities:

Sponsors will receive:
- Recognition on the NFSTC ROTC webpage
- Certificate of donation ($100)
- NFSTC loupe – the pocket magnifier each student receives in class ($250)
- NFSTC challenge coin recognizing your contribution to the mission ($500)
- 8”x10” signed photo of the 2017 Cadets ($1000)
- Recognition in media announcements related to the internship

$2,500+ sponsors have the opportunity to attend one day of the course.*
*Travel not included. Sponsorship opportunities available until June 30, 2017.

Custom sponsorship opportunities are available. Contact Kevin Lothridge (Kevin.Lothridge@nfstc.org) or Bill Young (Bill.Young@nfstc.org).

Giving opportunities and credit card payment options can be found at www.nfstc.org/product/donation/.
